Full Description:

Paste Group: C

Form: modelled censer fragment

Thickness: 1.2cm

Height: 12.8cm

Width: 10.9cm

Diameter:

Handle width:

Handle thickness:

Verbal Description:

This modeled censer fragment is made of a jicaro tan paste with white and micaceous inclusions. It is a modeled flank of an amorphous face. There is a bulbous eye with an eyebrow curving up and wrapping over it then swooping up. The mouth is two bars 8 cm long, 1 cm wide, spaced 1.5 cm apart with 4 dots 1.3 cm in diameter spaced in a row between the bars. At the front of the mouth there is a fang 1.5 cm long coming from the upper lip and falling onto the lower. Overlapping the lower lip at the back of the mouth is a wavy bar. Behind the bars of the mouth, there is a circle 3.7 cm in diameter. The nose is shaped by the profile. The entire sherd is slightly fire clouded. There is no paint, slip, or brush stroking.
